Please join us for this awareness session that is being delivered jointly with West Yorkshire Police, The Community Security Trust, Leeds Jewish Housing Association and Leeds Jewish Welfare Board, to support people to benefit from crime awareness and security advice. The session will cover areas including personal and home safety, hate crime and abuse. It will also provide advice on how to recognise crimes and how to report them. You will also have opportunities to ask questions and raise any concerns you may have in relation to personal and home security. We will be offering further one to one advice to develop individual personal safety plans.
